System Generated Auto Assessment for Height Clearance

1. Airports Authority of India (AAI) in pursuance of responsibility conferred by and as per the provisions of Govt. of India (Ministry of Civil Aviation) order GSR 751 (E) dated 30th Sep. 2015 for Safe and Regular Aircraft Operations has assessed the site data filled by the applicant.

2. Assessment details for Height Clearance:

NOC ID :	SAFD/NORTH/B/020119/368446
Applicant Name*	Shashank Sharma
Site Address*	GANDHI MAIDAN PARKING SITUATED AT HC SEN MARG, CHANDNI CHOWK, DELHI - 110006
Site Coordinates*	77 13 49.11-28 39 26.23, 77 13 49.61-28 39 30.62, 77 13 49.69-28 39 25.39, 77 13 51.48-28 39 28.49, 77 13 53.28-28 39 30.42, 77 13 53.73-28 39 25.11
Site Elevation in mtrs AMSL as submitted by Applicant*	215.8 M
Type Of Structure*	Building

*As provided by applicant

Your site is located at a distance 8477 mts from ARP and lies in the grid F20 of the published CCZM of Safdarjung Airport airport. The Permitted top elevation for this grid is 370 mts.

Since the requested top elevation 255.8 mts in AMSL is below CCZM permitted top elevation, the NOC for height clearance is not required from Airports Authority of India.

3. This assessment is subject to the terms and conditions as given below:

a. The site-elevation and site coordinates provided by the applicant are taken for calculation of the permissible top elevation for the proposed structure. If however, at any stage it is established that the actual data is different from the one provided by the applicant, this assessment will become invalid.

b. The Site coordinates as provided by the applicant in the NOC application has been plotted on the street view map and satellite map as shown in ANNEXURE. Applicant/Owner to ensure that the plotted coordinates corresponds to his/her site. In case of any discrepancy, this assessment shall be treated as null and void.

c. Airport operator or his designated representative may visit the site (with prior coordination with applicant or owner) to ensure that assessment terms & conditions are complied with.

d. The assessment is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934 and any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994.

No. F.6/DFS/MS/BP/2019/ 164

Dated:- 07.05.2019

To,

The Executive Engineer (Bldg.) HQ
North Delhi Municipal Corporation,
8th floor, Mintto Road
New Delhi.

Sub: **Conditional Approval/NOC** of building plan in r/o Proposed construction of Gandhi Maidan Parking Building at H. C. Sen Marg, Chandani Chowk, Delhi-110006, **ID 10062504.**

Sir,

Please refer to ID No. **10062504** on the above cited subject. In this connection, this is to inform you that the online building plans in respect of proposed multilevel car parking building have been scrutinized by this department from fire safety point of view and observed that there is proposal of construction of automatic multilevel car parking comprising of three level basements, ground and five upper floors. (Mercantile occupancy at ground, 1st & 2nd floor). The total covered area is 107485.00 Sqm. The height of building is 25.30 meter up to terrace level. The proposed building abuts on 30 meter wide road.

There is no objection to this department for the construction of the said MLC building subject to the compliance of the following fire safety recommendations:-

- 1. Access to building:** The building is proposed to be located on 30 meter wide road and approachable through 06 meter wide gate, The entrance gate shall fold back against the compound wall of the premises thus leaving the exterior access in the plot. The archway, if any, shall not be at a height less than 5 meters. Clear cut 06 meter wide fire tender movement road with 09 meter turning circle all around the building capable of taking the load of fire engine weighing up to 45 tonnes shall be provided for free movement of fire engine as per clause 8.2 of UBBL 2016.
- 2. Number, width, Type and arrangement of exits:** 08 staircases of 02 meter each is proposed to be provided in the building from 3rd basement to ground floor and from ground floor to terrace floor and segregated at ground floor and they shall meet the requirements as per UBBL-2016. The all four numbers of proposed fire towers shall be extended upto 3rd basement.
- 3. Protection of exits by means of fire check doors and or pressurization:** The fire check doors of minimum 2hrs fire resistance rating shall be provided at the entrance of each staircase and lift lobby as per clause of UBBL 2016. Pressurization system for staircases, lift well and lift lobbies shall be installed as per NBC-2016 Part IV, as per clause 9.3.2 of UBBL-2016. **All the exit doorways shall be openable from the side which they serve as per clause 7.12.5 of UBBL 2016.**

विषय : MULTILEVEL CAR PARKING AT CHANDNI CHOWK

संदर्भ :

महोदय ,

उक्त प्रस्ताव पर आयोग की दिनांक **02/05/2019 04:30 PM** को आयोजित बैठक में विचार किया गया था ।
आयोग की प्रेक्षाएं तथा निर्णय इस प्रकार हैं ।

Decisions:

Approved, observations given.

Remarks:

The compliance of Commission observations to be ensured strictly by the North DMC before releasing the approval.

Observations:

1.The proposal forwarded online by the North DMC was considered by the Commission on the directions of the Hon'ble High Court of Delhi at its meeting held on April 3, 2019. It was found not acceptable and rejected wherein, certain observations were given.

2. The revised proposal was scrutinized, taking into cognizance observations made earlier, and after detailed deliberation, the following observations and conclusions were made :

i.It was observed that the building was now designed with a total height of 25.30 meters, with 3 basements with floor to floor height of 4800 mm. Basement no. 3 has a provision for double stacking with a parking capacity of 713 nos. Basement no.2 is provided with parking facility accommodating only 346 nos of cars which is to be managed by the North DMC. However, the basement no.1 has been designed for accommodating 281 nos. of small trucks like Tata 407, etc. It was observed that the height of the basement no.2 is also 4800 mm which is sufficient enough to accommodate the same number of cars as in basement no.3. Therefore, it is recommended to make provision of double stack parking in the basement no.2 also, thereby accommodating approximately 300 more number of cars. Thus, the total number of cars accommodated can be increased in the basement.

ii.The design has further provided for retail shops on ground floor, first floor and second floor with a floor to floor height of 4800 mm. As per provisions under clause no: 7.3 of the Unified Building By-laws 2016 (UBBL) for Delhi, for Business Buildings/ and Mercantile Buildings, it is stipulated that :

**Subject: Multilevel Car Parking Complex Project at Chandni Chowk, New Delhi
by M/s North Delhi Municipal Corporation (with Concessionaire M/s
Ansh Builders Pvt Ltd) - Environmental Clearance - reg.**

Sir,

This has reference to your online proposal No. IA/DL/MIS/88349/2018 dated 13th December, 2018, submitted to this Ministry for grant of Environmental Clearance (EC) in terms of the provisions of the Environment Impact Assessment (EIA) Notification, 2006 under the Environment (Protection) Act, 1986.

2. The proposal for grant of environmental clearance to the project 'Multilevel Car Parking Complex Project at Chandni Chowk, New Delhi promoted by M/s North Delhi Municipal Corporation (with Concessionaire M/s Ansh Builders Pvt Ltd), was considered by the Expert Appraisal Committee (Infra-2) in its 37th meeting held on 17th January, 2019. The details of the project, as per the documents submitted by the project proponent, and also as informed during the above meeting are as under:-

- (i) The project is located at Chandni Chowk, New Delhi at Latitude: 28°39'28.02"N and longitude: 77°13'51.11"E.
- (ii) The project is new and the total plot area is 18,524 sqm. FSI area is 19,260 sqm and total construction (built-up) area of 1,19,385 sqm. Maximum height of the building is 30m. The project will consist of Retail shops (ground floor to second floor) and Multi level parking (three basements and third to sixth floor).
- (iii) The total water requirement for the construction of Multilevel Car Parking Complex Project is estimated to be approx. 597 ML. The water supply during Construction phase will be met through Private Water Tanker. During the construction phase, soak pits and septic tanks are provided for disposal of waste water. Temporary toilets will be provided for labourers.
- (iv) During operational phase, total water demand of the project is estimated to be 388 KLD and the same will be met by 51 KLD fresh water from Delhi Jal Board and 337 KLD from recycled water, stored rain water and treated waste water from private water tanker. Wastewater generated (159 KLD) uses will be treated in STP of total 200 KLD capacity. About 143 KLD of treated wastewater will be generated from which 118 KLD will be used for flushing, 3 KLD for gardening, and remaining 22 KLD for HVAC.
- (v) About 1515.196 kg/day solid waste will be generated from the project. The biodegradable waste (606.07 kg/day) will be processed in OWC, Inert wastes
